## Dear Friends and fellow martial artists,

Thank you for your continued interest and support! We at Bushindo University/International Bujinkan Dojo Association are dedicated to helping you and others around the world more easily obtain quality Life Changing studies, including martial arts like Bujinkan Ninjutsu/Budo Taijutsu, DeCuerdas Eskrima, Bushindo Sword and Enlightened Warrior Teachings. We provide our students and friends direct lineage access to Soke Masaaki Hatsumi in Japan. Through our concentrated efforts we became an official Hatsumi (Quest Co. Ltd) DVD distributor and secured English subtitles on Soke's videos for you so that you can better understand what he is teaching. We also secured distributors for his Japanese and English book titles and hired translators of his Japanese books (both in and out of print).

We established a systematized structured step-by-step learning and ranking system from beginner to 10th dan. Our desire is to offer you the most comprehensive learning programs possible. We also believe that you should learn something for your grades and know why you have achieved a level. The teachings of the Do "Way" are very important to us. We have created our courses with the thought of you someday becoming a Shidoshi - A teacher of these warrior ways of Enlightenment.

Richard will tell you that being a pioneer has not been easy. When he started in 1982 gathering, exchanging, and offering information on the nine traditions of Bujinkan Ninjutsu he never imagined that he'd make well over 50 pilgrimages to Japan and around the world to personally train with Soke Hatsumi. Our Black Belt Home Study Course released in 1991 was well received all over the world. We've added the Nidan, Sandan and Yondan Course materials, as well as expanded the Spiritual Path course material. We are constantly updating our website with new information and products. Visit [www.Ninjutsu.com](http://www.Ninjutsu.com) often and keep your heart happy. Enjoy Your Studies,

## Want to know where to start?

We have done our best to offer training programs for every level of martial artist. With so much information available many of our readers often wonder where to start in their training. A good place to start is where you are in your training now or with what originally grabbed your interest in the first place (such as Wow! They have Hanbo stuff. So you get Soke Hatsumi and Master Van Donk's Hanbo dvds and book first). Or if learning Ninjutsu as an art is your passion and you are a beginner then consider enrolling in The Black Belt Home Study Course which was designed to give you a foundation and deep understanding of the Ninjutsu system in a step by step format. This is the best place to start, especially if you do not have an instructor in your area or if you have to travel long distances to train. According to success testimonials from both students and instructors alike our Black Belt Home Study Course is guaranteed to help you progress faster, even if you are currently training in a dojo. Our worldwide success is unprecedented. In the Masters section you will find something interesting no matter what your tastes are.

To see how Ninjutsu can work in a realistic situation get the Combat Ninjutsu tape. To learn about the history and philosophy of the art get Soke Hatsumi's books "History and Tradition" and the "Essence of Ninjutsu" If you are experienced in Bujinkan Ninjutsu we highly recommend Soke Hatsumi's dvd's in the following order: First dvd to get is Gyokko Ryu Kosshijutsu as it covers the foundations of movement, the San Shin and Kihon Happpo. Next get the Kobudo no Kihon dvd to teach you deeper aspects of the core of the art. Then choose a weapon dvd like the Hanbojutsu. Then get Shinden Fudo Ryu. And be sure to check out the Daikomyosai and Tai Kai dvd's which have a lot of bang for the buck!

Also, if you do not already have a spiritual practice and want to establish one then get the Living the Spiritual Path course or at least the Sourcing Enlightenment Audio Cd's that 25 years of research went into. And remember that for training you will need to wear a black uniform with a white belt until you pass your first level grade of 9th kyu and then you can wear a green belt until you reach the BlackBelt rank. We have studies all the way to 15th Dan and we have students that have got there. You can do it too but most of all get started and enjoy the life changing journey!

The ABD™ was founded in 1985 and IBDA™ was founded in 2000 by Shihan Richard J. Van Donk, a personal student of Grandmaster Masaaki Hatsumi, who has given us full authority to promote the Bujinkan Ninjutsu / Budo Taijutsu Tradition in America and throughout the world. Shihan Van Donk was awarded a 15th degree BlackBelt [menkyo kaiden the highest Ninjutsu rank possible] and has been given the prestigious Golden Dragon Award from Soke Hatsumi for his efforts in promoting Ninjutsu around the world. Comprehensive curriculums are available from beginner to 10th dan. All IBDA Ninjutsu rank certification comes from Soke Hatsumi in Japan. Your 5th degree Godan test can be taken with Shihan Van Donk or Soke Hatsumi in Japan only, at this time.

# BUSHINDO UNIVERSITY

## Master Van Donk reveals his vision and story behind Bushindo

The Bushindo™ System was founded in order to integrate my martial arts knowledge, and my experiences of spiritual awakenings, and brain-mind research, as well as to separate these teachings from those of the Bujinkan Ninjutsu System as taught

by Soke Hatsumi in which I have invested over three decades of study. In the past few years Soke Hatsumi has merged his arts into a kobudo (ancient warrior) fighting system now called Budo Taijutsu. Although I have trained extensively in these fighting arts, both with him and with many other Grandmasters, my heart and the passion that drives my life is the integration of the philosophical and spiritual sides of the sacred temple arts. I am very interested in seeing how far a group of individuals can evolve ourselves as human beings. The studies of brain-mind research, yoga, kundalini research, sound and light activation of consciousness, meditation practices, body healing methods and alternative medicine are foremost in my personal dedication now. Therefore Bushindo™ as a University was born.

## What does Bushindo University™ do for you?

Bushindo University™ brings back the temple arts and incorporates a complete system of integrating the human organism to its fullest state of development. Based on ancient sacred teachings that I have studied since I was a young boy, I have synthesized skills of the best of the best from many systems of studies that have transformed the lives of millions and millions of people. I have taught several of these systems to others in the past and achieved great results. By using my 35+ years of research into the science of how the brain/mind stores, codes and processes information to create and understand paradigms of study and forge modeling processes I am able to help you integrate the knowledge successfully at a faster rate of learning by unifying these sacred arts. I break the studies down into 5 categories of training; Physical, Mental, Emotional, Spiritual, and Social. To advance yourself as a martial artist or human being you must enhance each of these levels to lead a positive and balanced life. These Enlightened Warrior™ teachings are now shared in my private transformation sessions and at special events.

## Future of Bushindo University™

Over the next few years we intend to grow from a web presence offering products, services, and home studies to a full online university and a brain-mind research center with an indoor/outdoor year round Bushindo™ training facility where individuals can make a committed difference in themselves and the world around us. Designs and business plans are now being completed. If you have connections for funding let us know at it will make all our dreams a reality sooner.

## We love Ninjutsu and it is at the core of our teachings

I am still totally actively involved in the Bujinkan system of Soke Hatsumi. Ninjutsu is my passion which is why I have already taken about 50 trips to train with the Master. I received a Judan Menkyo (now equal to 15th dan in his Budo Taijutsu system) from Grandmaster Hatsumi at the beginning of the new millennium. I and other high level instructors support IBDA students worldwide with their Ninjutsu studies. **All of IBDA's Ninjutsu ranking comes from Japan.**

## Bushindo™ as a Martial Arts System.

In addition to studying with Soke Hatsumi in the arts of Ninjutsu I have been studying and teaching with several councils of Grandmasters. We gather for a few days or more to share each other's arts. We work on what really works and what doesn't. We work on what is the same and what is different. Being exposed to these wonderful masters has taught me many things, made me think and helped me to become a better martial artist of my own kind. I took the best and threw out the rest. I simplified and made everything flow better and easier. I made it all more accurate and precise. I worked on all the angles, distancing and timings of all these master systems until I discovered a master pattern which I call the Golden Matrix. What I have worked out seems to be the core of all movement systems. Bushindo™ is a body-mind-spirit integrated system that will renew, revitalize, and rejuvenate your life while giving you martial art skills second to none.

# Your IBDA Opportunity!

## HOW FAR DO YOU WANT TO GO IN YOUR NINJUTSU STUDIES? 5TH KYU? SHODAN? GODAN? SHIHAN?

**We take you from beginner to Master.**

Not just idle words. Hundreds of Bujinkan high ranking teachers got their start with us even a few made it to 15th dan! Results speak for themselves. You can be next when you start today with our teachings at IBDA. Go as far as you want to go.

**At IBDA you will find the following:**

We are dedicated to helping you personally grow as a human being, to become a better martial artist and to encourage you to become a teacher of what you love.

- All IBDA instructors (and students) know all the same information from 9th kyu to their dan certification level.
- IBDA instructors have solid reference material for themselves and students.
- IBDA Shidoshi (fully licensed) or Shidoshi-ho (junior licensed) instructors have been taught how to teach and are certified.
- IBDA instructors (and students) are properly rank licensed through Soke Hatsumi in Japan, signed by Shihan Van Donk and will be recognized worldwide.
- All students will have the opportunity to learn whatever they desire of the Ninjutsu teachings while having a solid curriculum to follow from 10th kyu Beginner to 10th dan Master.

**NOT ALL NINJUTSU TEACHING SYSTEMS ARE THE SAME.**

May I speak privately and honestly with you? Training and teaching in the Bujinkan can be challenging. Soke Hatsumi has left all organization, ranking certification up to Godan, and style of teaching his art to his Shidoshi students. They can teach anything they want, how they want, create any ranking structure they want, even have their own organization or not.

While this is wonderfully freeing for a teacher it is also very confusing to many students who see a BlackBelt with solid skills from one teacher and then see a 4th dan BlackBelt with no skill level from another. Even though they train in the same art students most often have not been taught the same information, nor are they required to be, the Bujinkan system is so loose that there are even disrespectful Shihan that fly around the country just ranking other peoples students whom they have only met for a day or so to much higher ranks than their own teacher has graded them. This often causes these students to leave their current teacher for the new one.

Good people are tricked into momentarily believing that rank is more important than knowledge as they think they can get the knowledge later. But without a standard study system this will never happen and these students end up being left without the guidance they truly need. For over 25 years we have had a very solid system of study from beginner to 10th dan, ranking based on knowledge and a worldwide organization that offers more study information and opportunities than anyone else in the art.

**Become An IBDA BlackBelt - Start the Masters or Shodan Course**  
We want to give our students what we did not get from our teacher and he supports us in this endeavor to offer you the best experience you can have in Ninjutsu. We encourage students to train with everyone they can to add to their knowledge while they foremost keep a solid foundation and an organizational home to build their martial arts experience on.

**“THERE IS GREAT JOY IN HELPING OTHERS HAVE A BETTER LIFE.”**

IBDA takes a solid stance on having a strategic standardized study plan that benefits everyone while offering additional flexibility so everyone can grow and learn at their own pace in the way they desire.

**IBDA - “TAKING YOU FROM BEGINNER TO MASTER”**

**WHY A HOME STUDY COURSE?** [www.BlackBeltCourse.com](http://www.BlackBeltCourse.com)  
Simply put, authentic Ninjutsu is hard to find in many parts of the world. You won't find a qualified instructor available on every corner. The Ninjutsu Black Belt Home Study Course gives people who are not fortunate enough to have a good teacher near them an opportunity to study this art in a step by step manner, offers them a way to get feedback on their training, and if desired, obtain a certified ranking. From the reports of our video students this is a dream come true. The Ninjutsu Black Belt Home Study Course even helps those who have a Ninjutsu dojo near them to practice the lessons at home, enhancing their training. Our students who train at the dojo and at home with the Course advance at least twice as quickly. The Ninjutsu Black Belt Home Study Course also creates a standard for growth and gives a new BlackBelt a method for becoming an instructor themselves.

### HOW WILL I BENEFIT BY STUDYING THE COURSE?

People who want a life change, new martial art students, families or buddies who want a hobby together, those who already train but want more information and to learn faster, those without instructors, instructors who want a curriculum for students, blackbelts in other arts and schools who want to add to their system, knowledge or credibility. Our success tells us that our Ninjutsu BlackBelt Home Study Course will give you the edge you need to become a better martial artist!

### HOW DO I GET STARTED?

[www.ninjutsu.com/beginnersreadthis.shtml](http://www.ninjutsu.com/beginnersreadthis.shtml)

Enroll in the Ninjutsu Home Study Course, fill out the Bushindo Student Registration form that comes with your set. Find a training buddy. Obtain through us or your local martial art shop a black uniform with a white belt. You do not need to have tabi shoes, (some do, some don't). Over time you will need to get or make a few wooden weapons such as a knife, 3ft staff, 6 ft staff and a wooden sword. Study each move on the dvd's over and over until you can do them easily just like it is shown. Most students take about 3 months at each level, achieving their BlackBelt in 2 1/2 years of dedicated study. If you are athletic or already have martial arts experience you may go faster through the levels keeping in mind that the basics are the foundations that you build your BlackBelt and above training on. This Course was carefully crafted over 7 years to give you a natural progression of material. Test for rank and keep studying.

### HOW DO I TEST FOR RANK?

We make it simple. Test at an IBDA dojo, attend the annual IBDA Ninja TaiKai, come get a private lesson, host a seminar, or submit a video (up to 1st kyu) to our testing center. We support you in every way in your distance learning. Worldwide success over the last 15+ years has helped us to perfect our teachings, creating BlackBelts and certified Instructors with these lessons. Your BlackBelt test and promotion must be done in person at a semi-annual camp, seminar, tai kai, dojo or private session (even at your location). This is a real BlackBelt and we want your day to be special! Check out all the testing options & details at [www.Ninjutsu.com/rank-testing.shtml](http://www.Ninjutsu.com/rank-testing.shtml)

### CAN I STUDY THE COURSE WITH A FRIEND? (BUDDY PLAN)

It is fun to have someone you can share this art with! Each of you will inspire the other's growth. Understanding this we designed a plan where you and a friend can share your training at a reduced price. Check our website for complete information or call 1-707-987- 9323 and ask them to send you the information form. Check out all the Buddy Plan details at [www.Ninjutsu.com/buddy-plan.shtml](http://www.Ninjutsu.com/buddy-plan.shtml)

### CAN I REALLY LEARN WITH THE DVD COURSE INSTEAD OF AN INSTRUCTOR?

Absolutely! The DVD videos are your instructor, teaching you in your home or dojo in a step-by-step way. You can slow motion the instructor and practice the move until you learn it. No intimidation of a class. Go at your own speed. And do it when you have the time. Of course you will need to find training partners or a Bujinkan school near you when you feel you are ready to take your training to a new level. We have created a unique and very effective video/ dvd testing feedback system that really works. We know because it produces results!

Over the years we have asked many people who have achieved BlackBelt level from us this question "Would you sell your BlackBelt knowledge, the changes it has made in your life, impact it has made on others and the friends you have made for \$50,000?" **The answer is always NO WAY!** In one class of 20 BlackBelts they all said NO even for \$1,000,000 - they actually said they would turn down one million dollars! Now that says something!

**You can be a BlackBelt in techniques and yet only be a White belt at sharing them.**

Teaching can be challenging on many levels until you learn over time by trial and error what works OR now you can get trained in a proven step-by-step method, possibly avoiding years of painful stress or just getting too frustrated and quitting. Teaching becomes a natural progression for many students that reach BlackBelt level, sometimes even sooner, as friends and family become curious about what you are learning. Sharing what you love is magical and gives you a great feeling inside. But it is one thing to be able to do techniques and a whole other thing to be able to share the teachings in a way that others can understand and duplicate what you are sharing. When the size of your group increases to 10, 20, 50 or even 100 students on any consistent basis it can be very overwhelming if you are not trained in how to handle this. The IBDA Shidoshi Teacher Training Course is designed to teach you how to set up your trainings, create schedules, themes and select material for your classes. It will also teach you how to instruct a class and how to handle challenging dojo situations. It will teach you how to interact with your students in a way that keeps them coming back for more. Shihan Van Donk will teach you how he teaches, how he trains his instructors and the secrets of

- **How to be a very skilled, confident teacher**
- **How to Create interesting Lesson Plans daily, weekly, monthly and yearly**
- **Handling your Students challenges and keeping them happy**
- **Your responsibilities as a teacher**
- **Empowering yourself to Empower others by learning to become a good communicator, and leader, how to think on your feet, and be quick at decision making.**

The future of the Bujinkan teachings will depend on its instructors knowing how to properly transfer the art's knowledge to their students and for these instructors to represent themselves as confident professionals both in and out of the dojo. We want our instructors to be examples for others to follow and for them to have been given training in how to teach. We want to make their transition easier. This is why IBDA requires the completion of this Shidoshi (Teacher of the "Warrior Ways of Enlightenment") Training Course for all students that want to become Shidoshi-ho instructors with IBDA. Some people will get to learn this in a dojo setting and some will not as they may only train outdoors with a few friends. It is wonderful if you can attend our dojo classes directly or train with a certified instructor but if this is not available to you we have a complete Distant Learning Program that can take you as far as you want to go. While you are training to get your BlackBelt in Ninjutsu you can also study how to teach the art to others. Most students will start this Shidoshi training by the time they reach the 3rd kyu level, which is over half way to Shodan, so that when you get your Shodan (or Nidan) you will already be trained as a Shidoshi-ho ( junior licensed instructor, a direct student under Shihan Van Donk) issued by GrandMaster Soke Masaaki Hatsumi at the Bujinkan headquarters in Japan. This enables you to open up your own Ninjutsu dojo. Yet the greatest level of all is what you will feel inside, the changes you have made in your life and how this affects others around you because of your hard earned efforts. These studies have been proven to change lives! Help us do that by sharing the art!

## **KIHON HAPPO - Koshi Sanpo / Torite Goho Gata**

The fundamental roots of all Budo may be contained in the Kihon Happon according to the last living true Ninja, Toshitsugu Takamatsu. Soke Hatsumi emphasizes the importance of deeply learning these fundamental techniques as a foundation to our Ninjutsu practice. On this video Shihan Van Donk breaks all the pieces of every aspect into a step by step learning of each Kihon Happon technique as no one else has yet done. The Torite Goho Gata is presented as an understanding of the Universal action of the Inner (Ura) and Outer (Omote). The Techniques covered are the Koshi Sanpo including Ichimonji No Kata, Hicho No Kata, and Jumonji No Kata and the Torite Goho Gata which includes Omote Gyaku, Omote Gyaku Ken Sabaki, Ura Gyaku, Ude Jime Ashi Ori (Musha Dori), and Ganseki Nage. This is such an important DVD to have in your learning library! Taught by Shihan Van Donk.

**1 hour DVD #DVD508 \$34.95**

## **SANSHIN NO KATA - Chi, Sui, Ka, Fu and Ku No Kata**

Elementary in nature and practical in application, the Sanshin no kata (three hearts methods) is the roots and core of the Bujinkan Ninjutsu training. The Sanshin comes from the 1,500 year old Kosshijutsu system of Gyokko Ryu. It has been practiced through the ages because the movements are fundamental to striking methods whether armed or unarmed. Learn each of the 5 kata as they are broken down piece by piece and step by step just as they were taught to Shihan Van Donk by Grandmaster Hatsumi in Japan. It is exciting to witness how each of these kata forms are used in combat. What's even more exciting is to see how they are the fundamental base for all longer range weapons, as is shown specifically on this recording. You will view the practicality and use of the Sanshin in a whole new light when you get this training. Taught by Shihan Van Donk and assisted by Shihan Balanon.

**1 hr DVD #DVD509 \$34.95**

## **POSTURE POWER - Kamae and their use in defense**

Now in one place on one video the primary postures from each of the 9 Ninjutsu schools are shown. Shihan Van Donk demonstrates each posture, teaches how to get in them, how to move from them, how to flow from posture to posture while learning their proper names and how to apply them in combat. Do you really know these postures and their Japanese names and how to use them? If not, here is your video. Postures (also known as Kamae) are the fundamental foundations to your martial arts ability and determine your ability to defend yourself. Proper positioning can be everything and knowing how to move in and from them may be even more important. There are 9 ryu (schools) in the Bujinkan Ninjutsu training and each school may offer different kamae (postures), often confusing even the best instructors. Practice posture to posture until you are very comfortable moving from one to the other with Posture Power. Shihan Van Donk is assisted by Shihan Ken Balanon and Shihan Joel Everett.

# Master Richard Van Donk's Ninjutsu Made Easy Series DVDs

Enjoy the Ninjutsu Made Easy Series™! For many years we had numerous requests to make it simpler and easier to learn Ninjutsu. Students asked us all the time where they could learn just the Kamae (postures) and how they work or for a DVD just on the Sanshin no kata and Kihon Happpo. They asked for more help on rolling or for a tape just on weapon postures and strikes. Of course we show all these things on the Black Belt Home Study Course, but they are divided up among the different levels, not in one place in succession. Soke Hatsumi doesn't teach basics anymore and many students just don't have access to a teacher nearby, so we listened, and convinced Shihan Van Donk to do a Ninjutsu Made Easy Series™ on the subjects you most asked for. Brand new footage goes more in-depth on these specific subjects than on the BlackBelt set to help students that really want to learn more. Now you can have more! These dvds were made for beginners and advanced students alike.

Smooth out the bumps and bruises. Learn how to make the ground your friend and make every roll much easier and effective. The ground is our friend because it tells us where we need to improve our relationship to it. Rolls may seem soft on a nice padded mat but in the real world made of asphalt and cement it hurts if you are not rolling effectively and that's where someone is going to attack you, right? On this video we explore the basic rolls used in Ninjutsu and break them down for you in an easy to learn fashion. Shihan Van Donk asked the assistance of Shihan Ken Balanon and Shihan Joel Everett to help teach you the art of rolling. Get rolling and get this great instructional tape.

**Getting it done fast, quick and powerfully.**

Cut to the chase and learn master level BlackBelt skills that are so totally devastating and so damaging they should only be used against a bigger, faster, or more powerful adversary than yourself. When applied these techniques can break bones, rip apart muscles, dislocate bones, smash faces, and destroy an attacker with a single blow whether they are unarmed or armed. This is rock and roll Ninjutsu with hundreds of different approaches to get it done quickly. Defenses against pushes, grabs, punches, kicks, sticks and knives.

Unsolicited testimonials say "Awesome, the best". The World Head of Family Sokeship Council awarded this video as the Top International Video of 1999.

## BE YOUR BEST! MAKE IT BETTER!

# Who is Soke Masaaki Hatsumi?

初見良昭

武神館

Dr. Masaaki Hatsumi was born in Noda, Japan on Dec. 2, 1931.  
Warrior names: Yoshikai, Tetzusan, Hisamune.  
Started martial arts at about age 7.

Grandmaster Hatsumi is the founder and International Director of the Bujinkan Dojo with its Hombu Bujinden Dojo in Noda City, Chiba Prefecture, Japan. He is married to his lovely wife, Mariko, a very famous Japanese dance teacher. After 15 years of training with Toshitsugu Takamatsu Soke (the last true living Ninja) Soke Hatsumi inherited the 9 Ninjutsu traditions listed below from Soke Takamatsu two years before his passing in 1972.

Soke Hatsumi has mastered many martial art systems including ancient Kobudo warrior true fighting arts. His combined form of martial arts is now formally called Budo Taijutsu and the name of his system name is Bujinkan. Soke Hatsumi graduated from Meiji University in Tokyo with a major in theater studies, and osteopathic medicine (bone doctor). Soon after graduation he opened a bone clinic in his home town and his practice continued on a steady basis until about 1990 when his travel and movie schedule took over all his time.

Grandmaster Hatsumi is the author of over a dozen books and 50+ video tapes on the art of Ninjutsu. He has been featured in almost every magazine relating to this subject in Japan and throughout the entire world. He has authored countless magazine and newspaper articles on Ninjutsu and on living a productive life. He wrote, directed and acted in 50 episodes of a television series called Jiraya which quickly became the number one children's program in Japan. He is now what is called a historiographer of martial arts for various plays and movies, acting as a consultant to ensure that what is being portrayed is done correctly based on true history. He is a past President of the Writer's Guild of Japan. He is sought out as a speaker and television personality in Japan and is an accomplished musician and singer who plays guitar and ukulele (for several years he played night clubs in an Hawaiian band as a singer and musician). The walls of his 3-story brick home display an elaborate collection of signed photos from presidents and leaders from many countries around the world, along with awards, certificates, and honorary degrees from some of the most elite organizations in the world. Among them are Honorary Doctorate degrees from the USA in Human Sciences and Philosophy, Honorary Texas Ranger, a Title of Knighthood from Germany, Black Belt Magazine's Instructor of the Year, and Honorable Citizenship from the state of Texas, cities of Los Angeles, California; Atlanta, Georgia; Dublin, Ireland; etc.... The list grew longer every year as he traveled around the world teaching at international Tai Kai events hosted by senior Bujinkan students in their countries. Soke Hatsumi has been awarded Japan's highest honor by the Japanese Emperor, the Cultural Award, for his worldwide martial art contributions. Students now travel from around the world to learn from him at his Bujinden dojo in Noda city, Japan.

## Takamatsu Toshitsugu - The last Shinobi Book

The biography of a legend in martial arts, perhaps the last true shinobi.

Takamatsu Toshitsugu was the teacher of world renowned Masaaki Hatsumi, Ninja Grandmaster. Takamatsu influenced the modern budo world greatly from his teachings and his mastery of some 20+ martial arts systems. He is said to have been in over 60 life and death battles. Read his story here.

In 315 pages this book not only describes the eventful life of two restless men who considered themselves to be the last shinobi but also delivers fascinating insights into the historical backgrounds of Japan on the threshold from medieval to modern times. Soke Hatsumi did not write nor help directly with this book and he does not read English so he will not authorize it as a factual account. But I am very interested in reading what a Bujinkan practitioner has learned over 25 years of research and many trips to Japan.
